WORK EXPERIENCE

FREELANCE FULLSTACK WEB DEVELOPER
2016-present

Freelance
I worked as a freelance fullstack developer on personal projects and personal clients.
Some of the more significant:
- Company website and project management software for client; Servicios Tecnicos.
- Company website for client; Baterias Toro
- Developed an ecommerce platform implemented by several clients.

Tech stack: React JS, Redux, SASS + styled components, Node JS (Express),

SENIOR FRONTEND DEVELOPER
2014-2016

Integra CSS
As a Frontend developer me and my team were responsible for the production, modification and maintenance of uContact, the main software platform of Integra. To do so, we used cutting edge technology, HTML5 (web RTC,web sockets, web workers, audio API, drag and drop, desktop notifications, client side storage), CSS,Bootstrap, Responsive Design, Javascript , jquery, jsDOC.

NETSUITE WEB DEVELOPER
march 2014
july 2016

Thinkspot
Netsuite developer at Think Spot mainly focus on two areas, e-commerce customization to several customers as per their business needs and suitetalk web services integration with .NET.

FULLSTACK WEB DEVELOPER
2013-2014

Booking Force
Full stack web developer at bookingforce, responsible for development and maintenance of a digital marketing and booking engine system for hotels.
I worked with a variety of technologies from frontend, HTML, CSS, Bootstrap, to server-side, C#, ASP.NET, including SQL Server 2008 as data store and LINQ.
I was able to develop no only programming skills but also clear communication skills to enhance the relationship with the client.

IT SUPPORT SPECIALIST
2011-2013

TATA Consultancy Services
IT support specialist at TATA Consultancy Services providing technical support to corporate clients.

Experience in ASP.NET, SQL Server 2008, Web Services, ADO.NET, Windows Forms.

Self-motivated to develop different automation tools to improve processes and enhance support, such as a monitoring software that retrieved the records that took longer by the server to proccess
